REPORT OF WORLD ENVIRONMENT DAY

Introduction:

On the occasion of **World Environment Day**, an awareness program was organized for the First and Second Year Diploma in Pharmacy students on **Thursday, 5th June 2025**, in Classroom 405. The event aimed to instill environmental awareness and responsibility among the students.

Activities

The session began with the theme “Beat Plastic Pollution – The Cure Begins With Us!”, by Ms. Pradnya Patil, who provided an insightful introduction about the importance and relevance of World Environment Day. She highlighted the global efforts being made toward environmental conservation and the role of young minds in this movement. Following her, Dr. Chaitrali Bidikar delivered a brief but inspiring speech that emphasized the urgent need for social and environmental responsibility. She motivated students to take small but impactful steps in their daily lives to contribute to a cleaner and greener planet. As part of the program, students from both years designed informative and socially aware posters related to environmental protection, sustainability, and climate change. These posters were displayed in the classroom and reflected the students' creativity and understanding of current environmental issues. To express appreciation for the enthusiastic involvement of all participants, Ms. Aditi Mhatre gave a heartfelt vote of thanks.

Conclusion

The World Environment Day celebration was a successful and impactful event that inspired students to take action towards environmental conservation.
