## **FIELD VISIT REPORT:**

### **PRIVATE HEALTHCARE FACILITY AT AIMS HOSPITAL**

#### **OBJECTIVES:**

The primary objective of our field visit to AIMS Hospital was to provide our pharmacy students with real-world exposure to the operations of a private healthcare provider. Specifically, we aimed to:

- Familiarize students with the overall functioning of a hospital environment.
- Observe and understand the role of pharmacists within a hospital setting.
- Explore the various departments within a hospital and their interconnectedness.
- Bridge the gap between theoretical knowledge and practical application in healthcare.
- Inspire students by showcasing potential career paths in hospital pharmacy

This visit was designed to complement our classroom curriculum and offer students a tangible understanding of their future professional landscape.

#### **PRIOR PREPARATION FROM BY THE STUDENTS FOR THE FIELD VISIT:**

To ensure that our students gained maximum benefit from this field visit, we implemented a structured preparation process:

1. **Background Research:** Students were assigned to research AIMS Hospital, its history, specialties, and any recent developments or achievements.
2. **Review of Hospital Pharmacy Concepts:** A comprehensive review session was conducted, covering key aspects of hospital pharmacy operations, including inventory management, drug distribution systems, and clinical pharmacy services.
3. **Preparation of Questions:** Students were encouraged to prepare a list of thoughtful questions to ask during the visit, promoting active engagement and learning.
4. **Briefing Session:** A pre-visit briefing was held to discuss expected conduct, safety protocols, and the schedule for the day
5. **Assignment of Observation Tasks:** Students were divided into small groups, each tasked with focusing on specific areas of the hospital pharmacy for detailed observation and reporting.

**6. Introduction to Documentation Methods:** Training was provided on effective note-taking and observation techniques to capture key learnings during the visit.

This thorough preparation ensured that our students approached the field visit with a focused and inquisitive mindset, ready to absorb and analyze the wealth of information they would encounter.

### **The field visit to AIMS Hospital provided numerous benefits to our students:**

- 1. Real-world Context:** Students gained firsthand exposure to the practical application of their theoretical knowledge, enhancing their understanding of pharmacy practices in a hospital setting.
- 2. Professional Networking:** Interaction with practicing pharmacists and other healthcare professionals opened doors for future mentorship and career opportunities.
- 3. Technological Awareness:** Exposure to state-of-the-art pharmacy equipment and software systems broadened students' understanding of modern healthcare technology.
- 4. Interdisciplinary Understanding:** Observing various hospital departments fostered an appreciation for the collaborative nature of healthcare delivery.
- 5. Career Inspiration:** The visit inspired students by showcasing diverse career paths within hospital pharmacy, from clinical roles to management positions.
- 6. Practical Skills Observation:** Students observed critical skills such as medication reconciliation, patient counseling, and interdepartmental communication in action.
- 7. Regulatory Compliance Insight:** The visit provided insight into how hospitals implement and maintain compliance with healthcare regulations and standards.
- 8. Enhanced Learning Retention:** The immersive experience of the field visit is likely to result in better retention of concepts compared to traditional classroom learning.

**PURPOSE:** To observe the Private Healthcare Facility in pharmacy college as part of the D. Pharmacy syllabus curriculum.

**LOCATION:** M.I.D.C., Rd Number 5,, Milap Nagar, Dombivli East, Dombivli, Thane, Maharashtra, 421203

## **TEACHERS/INSTRUCTOR:**

1. Ms. Kajal Yadav
2. Ms. Dhanashree bhosale

## **GENERAL EXPERIENCES DURING THE FIELD VISIT:**

Our field visit to AIMS Hospital on October 08, 2025, was an enriching and well-organized experience:

1. **Warm Welcome:** Upon our arrival at 1:00 PM, we were greeted warmly by the hospital staff, setting a positive tone for the visit.
2. **Comprehensive Tour:** We were provided with a thorough tour of all departments in the hospital, giving students a holistic view of hospital operations.
3. **Focused Pharmacy Observation:** Special emphasis was placed on the hospital's pharmacy, allowing students to observe and interact with practicing pharmacists.
4. **Interactive Sessions:** Throughout the visit, students had the opportunity to ask questions and engage in discussions with various healthcare professionals.
5. **Hands-on Demonstrations:** In some departments, students were given demonstrations of equipment and procedures, enhancing their understanding through practical exposure.
6. **Professional Conduct:** Both the hospital staff and our students maintained a high level of professionalism throughout the visit, fostering a productive learning environment.
7. **Time Management:** The visit was well-structured, allowing adequate time for each department while maintaining an engaging pace.
8. **Safety Protocols:** Proper safety measures were observed throughout the visit, ensuring the wellbeing of our group and the hospital's patients.
9. **Collaborative Atmosphere:** The hospital staff showed genuine interest in educating our students, creating a collaborative and supportive atmosphere.
10. **Reflective Discussions:** Brief reflection sessions were held between department visits, allowing students to process and discuss their observations in real-time.

Overall, the experience was highly positive, providing our students with valuable insights into the workings of a modern hospital and its pharmacy operations.

## CONCLUSION:

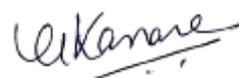

The field visit to AIMS Hospital on October 08, 2025, proved to be an invaluable educational experience for our pharmacy students. This excursion successfully bridged the gap between theoretical knowledge and practical application, offering students a comprehensive understanding of hospital pharmacy operations within the broader context of healthcare delivery.

### **Key takeaways from this visit include:**

1. Enhanced appreciation for the integral role of pharmacists in hospital settings.
2. Improved understanding of interdisciplinary collaboration in healthcare.
3. Exposure to advanced pharmaceutical technologies and management systems.
4. Insight into the complexities of medication management and patient safety protocols.
5. Inspiration for potential career paths within hospital pharmacy.

The visit not only reinforced classroom learning but also provided new perspectives on the pharmacy profession. Students returned with a renewed sense of purpose and a clearer vision of their future roles as healthcare providers.

In conclusion, this field visit to AIMS Hospital has significantly contributed to our students' professional development, equipping them with practical insights and motivation as they progress in their pharmacy education. The experience has undoubtedly enhanced their preparedness for future roles in the ever-evolving healthcare landscape.
